Report Highlights:

In December 2002, The Food Industries Holding Company signed an agreement with Syria to import 100,000 MT of Syrian durum wheat in exchange for unspecified amount of Egyptian commodities including rice and potatoes. We inadvertently reported the Syrian wheat amounted as 200,000 MT in our previous wheat update report (EG3007). The correct amount of Syrian wheat in this barter arrangement is 100,000 MT.
